

REMARKS

Please disregard the formal drawings previously filed on December 22, 2003 in consideration of the re-numbered formal drawings accompanying this amendment, along with the necessary changes in the specification.

Replacement Section of the Specification

The section of the specification entitled "BRIEF DESCRIPTION OF THE DRAWINGS" has been replaced. The replacement section renumbers drawings 1, 1A, and 2-10 as drawings 1-11. In addition, descriptions of newly added drawings (discussed below) are added.

Replacement Paragraphs of the Specification

With the exception of the newly added paragraphs, discussed below, the only revisions entered by way of the replacement paragraphs are to bring the specification in line with the drawing figures as properly renumbered.

New Figures and Added Paragraphs

The new drawing figures, FIGS. 12-14, are formal drawings made from color photographs submitted as part of the provisional application of which the present application claims priority. The newly added paragraphs discuss features of the new drawing figures that are clearly present in the color photographs. No new matter is added by either the new drawing figures or the added paragraphs.

If there are any issues that can be resolved via a telephone conference, the Examiner is invited to contact Larry A. Roberts at 404-745-2409.
